MTAG is please to present its **Spring Government Innovation Conference on March 8th, 2012** at the **Ottawa City Hall**.

At MTAG, we view innovation as the activities that achieve better long term outcomes through less costly methods. Canadian municipalities need bold innovative leaders, together lets encourage them to lead. They need to know that you are engaged and observing their willingness to put your interests before status quo interests.

The panel discussion will explore different cases of innovation at municipalities across Canada.

The keynote is a must attend, our speaker is straight talking no nonsense former Ottawa Police **Chief and now Senator Vern White** who recently appointed to the senate by Prime Minister Stephen Harper.

We can only imagine what a straight talking no nonsense former Chief of Police will have to say about municipal police budgets, compensation and the root causes of crime.

Senator White is passionate about these important topics and he will provide wisdom and insight for municipal leaders across Canada.
